NOTICE TO ICE CONSUMERS.
THE UNDERSIGNED, the oldest ICE trader in the City of Milwaukee, would inform the Public that he, as usual, will cut his Ice in the neighborhood of the Harbor, in order to procure the clearest and best Ice; and also that he will place around the holes which he cuts in the Ice blocks of Ice as a fence, that everybody may be warned from danger. The cutting will commence about the First of January

If the Common Council will appoint an overseer, I should have no objection and I would even pay the expenses, should it be required

I am confident that the Public will appreciate my endeavors to serve them with the best Ice, at the same time guarding them from danger

Come to the Palace, oh come there with me,
Where Fashion, 'mid splendor, still holds her levee
And smilingly tells you that Beauty is sold,
To youth [illegible] in exchange for their gold
And their Lady-like charms through life may prolong,
In robes like a Queen's which sell for a song
They've shawls for the taste, and shawls for the storm,
They've cloaks which fall softly, so rich and so warm,
They've [illegible] of Velvet and Brussels
[illegible] laces and broideries, ribbons and tassels,
The [illegible] goods for the weeping, and sad,
They've [illegible] like the sunshine for merry and glad,
They've [illegible] for millions, and hold their levee,
For those who pay tribute, or come but to see,
[illegible] Palace of Dry Goods, so wonderous grand,
Can be aught but a fable, of old Fairyland,
But those who know WEVER, can't doubt for a minute
This glorious Palace, and all that is in it C H G

Now I blush! indeed I do, what modest married man would not? Yet I console myself with the idea that beauty always [illegible] tribute to worth and merit Thanking sincerely yet humbly my fair contributor, I trust that by honesty [illegible] and my gentlemanly bearing I may ever command her respect

"FREEDOM FOR KANSAS!"

KANSAS MASS MEETING,

On Thursday Evening, March 6th, '56

A KANSAS MASS MEETING will be held in this city on Thursday evening of this week, March 6th. Its objects are to raise *men and money* to aid the Free State men of Kansas when the Freemen of Wisconsin agree that such assistance should be rendered, and to give expression to the prevailing sentiment in the State.

The people of the State are invited to unite in this demonstration, and send delegates to the same. Delegations will be received at Young's Hall from 5 to 6 o'clock on the afternoon of that day.

☞ Papers throughout the State friendly to the movement are requested to publish this call.

Kansas Aid Meeting at Janesville.—A very large and enthusiastic meeting was held at Janesville on Friday evening last, upon the all engrossing question of aid to Kansas. Ithiel Field presided; J. H. Burt Vice President, and Chas Holt, Secretary. Several eloquent addresses were made, spirited resolutions adopted and the following delegates appointed to the meeting to be held in this city on Thursday next:

F L Dimock	Henry C Mattison,
James M Burgess,	John R Bennett,
O W Norton	S W Smith,
Joseph Sleeper,	F A Howland,
S C Burnham,	Chas Holt,
Wm M Tallman	J P Dickson
J J R Pease,	J M Smith
H K Whiton	

A Committee was appointed to receive contributions, and a large sum made up on the spot, including two $100 subscriptions, several of $25, and a large number of small ones.

The Contested Governorship.

The argument on the *demurrer*, in the Supreme Court was closed yesterday by T. O. Howe, Esq., for the relator, Mr Bashford, and the case is now under the consideration of the Court. We presume that the decision will be given to morrow, and it seems to be generally anticipated that it will bring matters to a crisis.—The people of the whole State are watching with great interest the progress of this important suit, and, with rare exceptions, desire that prompt and full justice may be done.

Death of a Good Citizen.—We regret to record the death of William Brown, Esq., of the firm of Wm Brown & Co., formerly of Albany, New York, but for some 1[illegible] years past a resident of Milwaukee. Mr Brown was an upright man, a prudent merchant, a true friend, a kind husband and a good citizen. His funeral will be attended from St Paul's Church at 2 o'clock *this* afternoon.

From Our New York Correspondent.

New York, Monday Feb [illegible]

We have two steamers to day, the *Atlantic* and the [illegible], beating the *Atlantic* by two days and bringing London dates of the 9th inst. The probabilities of European peace seem strengthening while, as a set off, the London press (at least a considerable portion of it) seems bent upon provoking hostilities between England and the U. S. I cannot feel that there is any real risk of such a disastrous issue, for the common sense and the common interest of the people of both countries are opposed so clearly to any such violences and folly, as to make it comparatively a matter of indifference what personal ambition, violence or resentments of a few politicians, or political leaders on either side of the Sea may aim at. For, happily for Humanity and the cause of Right, the voice of the people can be heard and must be respected, both in England and America. Already in Liverpool, Manchester and other commercial and manufacturing centres the indications of opposition to any such causeless war with America, as could grow out of the relatively unimportant questions which divide the two governments, have been plainly manifested. Moreover, on the score of policy as to success in their European peace negotiations—now probably in actual progress at Paris—it would be very unskillful in England to let it be perceived that she was on the eve, or really entertained a purpose, of hostilities with the U. S. It would certainly not aid the readiness of Russia to make the concessions to be required of her, as preliminaries of peace, if she should have reason to believe that the enemy which has most contributed by her maritime superiority to the efficiency of the Crimean campaigns, was about to incur enmity and active hostility of so powerful a maritime country as this.

Nor is this the only political consideration likely to force itself upon the English Statesman when looking at the possibilities of a war with the U. S. He must be blind indeed who does not see in the present aspect of European affairs, that the *entente cordiale* between England and France is but a shadow, and that notwithstanding the humiliation of England's Queen and England's moral power, by the reception given to the Third Napoleon at Windsor Castle, the heart, the military heart of France is not with England, and that the views of the Napoleon himself, as to government and the powers of the throne, are much more in harmony with those of the Russian Autocrat and Austrian Kaiser, than with those of the Constitutional Monarchy of England. France is now pushing for peace at all hazards and England must do in the premises what France desires. The Russian will not fail to take advantage of the manifest diversity of views as to the time and admissible conditions of peace thus known to exist between the two great Western Powers, and it may be one of the chief motives to reconcile herself to any peace just now, which can only be attained through some sacrifice on her part, that such peace will have the effect of widening the breach, if not effectually breaking up friendly relations, between England and France. In short, with such complications as surround European politics just now, and with such strong pecuniary interests as England has in maintaining uninterrupted peaceful relations with us, I cannot look upon the war talk of the press, brought to us by the steamers to day, as anything but empty and incoherent [illegible], which can have no evil consequence for us, if only we shall have the good sense to regard it as such and nothing else.

The prices quoted for Bread-stuffs are lower but cannot go much lower and I think must again be higher between this time and the next harvest, for the supply cannot anywhere be more than an average, and without any supplies anywhere to fall back upon, in case of accident or mistaken [illegible] as to the wants of each country.

We look with great interest for the decision of your Supreme Court in the matter of the usurping Governor. Their first unanimous decision in favor of their own jurisdiction was received as *a matter of course* for the pretension that the Governor's office was not subject to the writ of *mandamus* seemed a pretension too monstrous even for such representatives of *Sham Democracy* as Mr Barstow and his advisors until it was actually put forth. The Courts now have a most solemn and responsible trust to execute, not in Wisconsin only, but throughout the Union. If they fail us at the extremest need—if party spirit, which has corrupted so much, and so far, shall reach the bench—the security of all our rights and liberties is shaken and we shall be driven to resistance for the recovery and re establishment of first principles. It would indeed almost seem that the super abundant prosperity with which God has blessed our nation, had so blinded our judgment and lulled the vigilance which is the only sure safeguard of liberty, that we fail to watch the inroads of lawless assumption of power, and, still worse, neglect systematically the duty, which no citizen may without wrong to his country and danger to himself neglect—the obligation incumbent upon each and all of us, to exercise always and on every occasion calling for it, in the most careful and inquiring spirit, the right to nominate and elect our public officers and representatives.

We who complain of the progress of misrule and corruption are much to blame—I take my full share of it—for our own neglect of our primary duty as thoughtful electors. But enough of this now.

Our Relations with England.—The New York *Tribune* of Wednesday last contains the following, under the head of "Important Rumors":

"We understand that a letter was received to day in this city by J. B Cutting Esq, from Attorney General Cushing, which states that the Central American question is in a fair train of settlement. The Clayton Bulwer treaty has been abrogated, and a new treaty is to be formed.

We have also confirmatory intelligence by the Atlantic. It is stated that Mr Buchanan, in an interview with Capt West before he left Liverpool, informed him that he looked upon the Central American affair as arranged, and that the Crampton matter was now the only obstacle to a perfect understanding with the British Cabinet. A leading bank officer has also received a letter from his brother, at present in London, who had an interview with Mr Buchanan, and who writes the same effect."

Prospects of Prairie du Chien.

Mr I. B. Quiner, formerly of Watertown, who has just located himself at Prairie du Chien and opened a General Land Agency Office there, writes back to the Watertown *Democrat* a graphic description of his new home, from which we take the following extract:

The Upper Landing or Island, as it is called,—from the fact that a slough cuts off of the river runs between it and the main land—is where the steamboats all land at present. It contains many substantial stone buildings, among which is the substantial and beautiful mansion of Col. H. Louis Dousman, who has been here many years.—The large stone warehouse of Mr Brisbois and a steam grist mill, are also upon the Island. From the Island to the Upper Town it is about half a mile. The slough is crossed by a substantial bridge. Much of the business is at present done in the Upper Town but the location of the depot will, undoubtedly, have the usual effect of drawing the business toward it. It is located in the Lower Town about a mile from the Upper Town. The United States property lies between the Upper Town and Depot.

The larger portion of the village lies north of the garrison property at present, but the lands near the depot are owned by an energetic set of men who are determined to make it, if possible, the most important part of the city of Prairie du Chien. With such men as Howel, Clark, [illegible] and their coadjutors the Lower Town is bound to flourish. Large improvements are already in progress and the present summer will witness a growth in both the Lower and Upper Town which will perfectly astonish the Milwaukeeans themselves. There is ample room for development and if my knowledge in the growth of towns in the west does not belie me, I think Prairie du Chien will occupy in a very few years the position of second city in the State—Watertown not excepted.

The Milwaukee and Mississippi Rail Road terminates at Prairie du Chien. The passenger depot is located on the east bank of the Mississippi and the freight depot on an Island a short distance opposite, having on its west shore a depth of water, I am told, sufficient to permit steamboats to land at the depot. Around these locations are splendid business lots, which are for sale at reasonable prices. J. C. Howell, Esq., a gentleman of integrity and character, has established himself in the South Town and is doing much by his enlarged views to build up a thriving community. There are others but I have not room to mention them here.

Allow me to make a few general remarks in regard to this embryo city and I will close my already too long communication. Its beautiful situation and the country on the other side—being rich prairie, after crossing the bluffs about five miles—it being the terminus of the [illegible] Wisconsin Railroad, and the advantages derived from the river navigation must build up one of the largest and best cities in the State. Already over thirty steamboats are engaged in the river trade, which must increase with the settlement of the up river country. It already has resident there men of energy and capital of the right stamp to build up a city, and establish social and educational institutions especially making a desirable place of residence for those who wish to educate their children and enjoy the blessings of refined and genteel society. The coming season will see the erection of large hotels for the convenience of the traveling public. When I was here, A. L. Kane Esq., of the American House Milwaukee, purchased largely of real estate, among which was the Phoenix Hotel.—This house, he will enlarge by the erection of a large four story brick addition this summer, and will be fitted and furnished in the most approved style, and kept accordingly by Messrs. G. B. and W. H. Kane. A large hotel is also being finished and furnished in the lower town, and still others will be erected. There will no doubt be business for all.

Western Railroads.—In New York on Wednesday, there were sales of 95 shares M. & M. R. R. stock at 84a85, and 100 Lake Shore do. at 72a7[illegible]. The *Herald* of Feb 28 says:

The interest due on the following bonds 1st March, will be paid by Messrs. Atwood & Co., No. 8 Wall street:—Knox county, Ohio, issued to the Springfield, Mount Vernon and Pittsburg Railroad Company; City of Milwaukee, issued to the La Crosse and Milwaukee Railroad Company and to the Milwaukee and Fond du Lac and Green Bay Railroad Company.

☞ Judge Doolittle, as we learn, resigns in order to be a candidate against Judge Whiton for the Chief Justiceship. Failing in this he will remove to Milwaukee.—*Wisconsin* of yesterday.

Judge Doolittle's *avowed* object in resigning his seat on the bench, is to resume the practice of the Law. How much truth there is in the *Wisconsin's* conjectures we do not know.

These figures are compiled from the recent Report of the City Comptroller. They exhibit the almost imperial wealth of this City at *five hundred and twenty nine millions of dollars* to 624,000 inhabitants, or 58,815 qualified electors, equal to $9,005 to each elector. The separate wealth of the city Corporation $13,681,769, including the Croton Aqueduct, is five fold greater than the public debt of $8,406,136 that encumbers it. The area of 750 acres set apart and assessed for the new Public Park, is equal to 7,700 building lots, 25 by 100 feet each. The property has been taken for this object at an assessed valuation of $5,169,469, to which is to be added the cost of grading, inclosing and ornamenting the grounds. The money to these ends will be raised by a City loan, which, under such an exhibit of wealth and moderate incumbrance need scarcely bear 5 per cent per annum to command its par value.—*N. Y. Times.*

Chicago Charter Election.—The City of Chicago holds its Charter Election *to day*. The contest promises to be a very exciting one. T. Dyer heads the Nebraska ticket, and F. C. Sherman the Anti Nebraska, both strong and popular men.

Madison Correspondence.

Madison, March 1st 1856.

Editors Sentinel:—The case of Bashford vs. Barstow came up before the Supreme Court on Thursday last, to hear the plea of *demurrer* put in by the plaintiff's counsel. More delay was asked for by the counsel for Barstow on the ground of the illness of Mr Arnold. Mr. Carpenter was absent about matters which he deemed of more importance and Mr Orton was the only one of Barstow's counsel who had made arrangements to be present. The Court very generously gave them more time and set it down for Friday afternoon, at which time Mr Ryan commenced his argument and concluded it at noon on Saturday. The argument of Mr Ryan is admitted on all sides to be a most splendid effort, and perfectly convincing to the mind of every listener, as to the justice and righteousness, both in law and equity, of the claims of Mr Bashford. The Ex Governor and present usurper was handled in a style peculiar to Mr Ryan, and the platform of legal technicalities and cobweb quibbles erected for the support of the usurper, were brushed away by his successful unfolding of the leaves of law, and the irresistible breath of his convincing logic.

The people about here are beginning to think that it is about time that the question should be settled, and that the Governor who was elected by the people should be placed in his seat. The accumulating evidences of fraud are so great that those heretofore in doubt are now satisfied of the outrageous iniquity and are clamorous for speedy justice.

There is being made a systematic effort to defeat the investigating committee in their researches into the affairs of the School Land office, those Democratic members of the House who started the measure are showing symptoms of "spinal weakness," and are talking about a commission to sit during the recess of the legislature. It is supposed that the members of the Senate will be green enough to agree upon a day of adjournment—that a bill might be passed by the two houses appointing this commission—and then the Governor who does not wish to have this office particularly examined into, will do as he did last winter, and veto the bill! Then the legislature will adjourn at the time agreed and the committee of investigation "will go up," with the rising of the legislature. Perhaps the Senate will be caught napping, but I think it will not be.

The Kansas resolutions introduced by Senator Clement, were taken up on Thursday, and on motion of Senator Giles, the previous question was moved, debate being thus cut off, the vote was taken and decided in their passage by a vote of 14 to [illegible]. Some of the democratic Senators voted for the preamble and against the resolutions, and some *vice versa*, a very convenient way of dodging, and voting upon both sides of the same question. The next morning, Senator Rose not being exactly satisfied with the record, nor the resolution, moved a reconsideration, by which the vote was carried. Senator Cobb, having a desire to explain himself and his position, occupied a little time, and the contagion of explanation spreading, the motion for reconsideration was carried, and the resolutions were then made the special order for Friday afternoon. Accordingly, the resolutions were brought up on Friday afternoon, and the Senate having gone into Committee of the whole, Senator Sutherland moved a substitute which he offered and advocated in his peculiar style.

Senator Harvey replied, and thought that substitute covered too much ground, and was not to the point, and preferred the original resolution. The question, being upon the adoption of the substitute, was lost.

Senator Sholes then presented a substitute carefully drawn and made so as to ignore the pending and present issues as far as the existing state of things, with regard to Kansas matters in particular, was concerned and covered the ground of the power of the constitution in making slavery a local matter and freedom the object of the constitution itself. These views he enforced in some very well conceived and eloquent remarks which were well received and appropriate. His object was understood to be, to present something for the adoption of the Senate, on which the Democrats would unite in sufficient members to carry them through both houses. However resplendent the faith which can anticipate such a state of things from the supporters of Barstow and Pierce, and however delightfully it must happify the soul of the possessor if it confers no other benefit, the substitute was not accepted as the elixir which would accomplish so blessed a result.

Senator Worthington replied to his remarks and insisted that however true in the abstract and however correct the statements and conclusions drawn from them, yet they were not what was wanted, the present being peculiarly a time for expressive action, and an occasion now presented itself when the direct issues made up by the propagators of Slavery should be boldly and manfully met, and this issue was best met by the resolutions introduced by the Senator from Racine. If he had been consulted in the drawing up of these resolutions he might have varied the phraseology perhaps, in some instances, but upon the whole they met his views fully and were best adapted to the end proposed, and he hoped the substitute would not be adopted.

Senator Clement did not see any particular necessity for defending the original draft as presented by himself as the opposition had not seen fit to attack them in this debate. Some remarks had been dropped before the Senate went into Committee of the whole, by some Senators questioning the fact as stated in the first division of the Preamble. He quoted from "Benton's 30 years in the Senate," sufficient to fortify his position, (but I could not get the exact words,) and declared himself ready to defend every statement advanced in any part of the preamble or resolutions. He thought this no time for milk and water resolutions upon ancient and foreign subjects. The people of Kansas were to-day in peril of life and fortune; the people of Kansas were to day defending in their persons the principles of our fathers, and the birth right of our children, and he was for meeting the issues of the living day, as these issues presented themselves. We should be unworthy of the blessings bequeathed to us by our fathers if we were not prepared to defend them when attacked. He was ready to meet bayonet with bullet, if this was the expression demanded of us. He would not extend his remarks, as the position taken in the resolutions had not been assailed. He would make a defence when the citadel should be attacked.

Senator Sholes again spoke in favor of the substitute presented by him and upon the question being taken, the substitute was lost.

The preamble was then amended by the alteration of a few words as you will see by the copy I send with this, and the committee then rose and reported them back to the Senate.

Senator Hadley took the opportunity before the vote was taken to say that he was a democrat and undertook to defend the democratic party from the charge of being a pro slavery party, but he should nevertheless vote against the resolutions. Senator H. you know, is a remarkably *fair*, candid and "disinterested" man, and it was a little questionable if one could judge by the countenances of some of the Senators, whether they should take him in a Pickwickian sense entirely or not. If you ever saw a boy creeping suspiciously out of a baker's shop, with crumbs of ginger bread dropping from his mouth, as he vociferated his innocence of the charge of stealing, you can have some idea of the appearance of the Senator as he vindicated the democratic party from the charge of being pro-slavery.

After considerable debate, the question was divided. The vote on the preamble was as follows:

Ayes—*Adams, Barber, Clement, Cobb, Dexter, Giles, [illegible] Sholes, Sutherland, Taylor and Worthington*—13

Noes—Dunn, Fitzgerald, Gernon, Gibson, Hadley, O'Neil, Rose, Smith and Weil—9

The vote was as follows on the first resolution:

Ayes—*Adams, [illegible], Clement, Cobb, Dexter, Giles, [illegible] Harvey, Mills, [illegible], Love, Smith, [illegible] Sutherland, Taylor and Worthington*—16

Noes—Dunn, Fitzgerald, Gernon, Hadley, O'Neil and Weil—[illegible]

The other resolutions as follows:

Ayes—*Adams, Barber, Clement, Dexter, Giles, Harvey, Mills, Porter, Sholes, Sutherland, Taylor and Worthington*—12

Noes—Cobb, Dunn, Fitzgerald, Gernon, Gibson, Hadley, O'Neil, Rose, Smith and Weil—10

A motion to reconsider was lost. Senate adjourned.

Truly yours.

Railroad Meeting at Columbus.

At a meeting of the citizens of Columbus on the first of March inst., to take into consideration the present condition and prospect of the extension of the Milwaukee and Watertown Railroad west of Watertown, and for the purpose of obtaining further aid to enable the Company to prosecute the work, Hon. James F. Lewis was called to the chair. After calling the meeting to order, the Chair, in a very clear and able manner, stated the object of the meeting and also the conditions on which the work could be pushed forward to completion. The meeting was attended by all the substantial men of Columbus and adjoining towns, interested in the enterprise.—Judge Lewis was followed by Mr O. F. Blount, the agent of the Company, who urged with much earnestness and ability the necessity of making a strong effort to attain the object.

A committee on resolutions previously appointed by the chair, consisting of Messrs. Griswold, Carr and Ingalbee, reported the following, which were unanimously adopted:

Resolved, That we have great confidence in the President and Directors of the Milwaukee and Watertown Railroad Company and believe that under the constant pressure from without which has been thrown upon them, by designing men and enemies of the road they have done all that we could expect toward pushing their road to this place.

Resolved, That we repose entire confidence in the energy and ability of W. B. Hibbard, Esq., President of the company and believe that the pledge he has made to "run the cars to Columbus by the first day of November next" he will sacredly fulfil. We on our part pledge ourselves that we are at all times ready to meet him half way, and will hold ourselves in readiness to perform our part of the pledges for the speedy completion of the road to Columbus.

Resolved, That the Company are indebted to the gentlemanly conduct and business tact of their Agent Mr O. F. Blount—"for his untiring effort in procuring stock and right of way on the line of their road West of Watertown, and hope they will, if possible, retain him in their service, as his continuance will be profitable to the Company and gratifying to his numerous friends here and along the line of the road.

After the adoption of the resolutions the gentlemen present subscribed liberally to the stock of the company taking in all over forty thousand dollars, and pledging fifty five thousand dollars in all during the next week. There was but one feeling manifested and that was to do all that was necessary to ensure the completion of the road to Columbus at the earliest time possible.

The Peace Conferences in Paris.

It is settled that the Peace Conference meets at Paris at the request of the Emperor of Russia. This cannot be regarded otherwise than as a fresh triumph for the diplomacy of the French Emperor. At Paris the envoys cannot but feel some effect from the influence of their French surroundings, to choose it as the site of the conference evinces on the part of the Emperor of Russia a regard for France, a desire for peace and a respect for his antagonist, which was hardly to be expected.

The *Moniteur* gives the names of the Plenipotentiaries. They are:—

FOR FRANCE.

Count Colonna Walewski, Minister of Foreign Affairs of the Emperor, and Baron de Bourqueney, his Envoy Extraordinary and Minister Plenipotentiary at Vienna.

FOR AUSTRIA.

Count Buol Schauenstein, Minister of Foreign Affairs of the Emperor of Austria, and Baron de Habner, his Envoy Extraordinary and Minister Plenipotentiary at Paris.

FOR GREAT BRITAIN.

The Earl of Clarendon, Principal Secretary of State for Foreign Affairs, and Lord Cowley, Ambassador of England at Paris.

FOR RUSSIA.

Count Orloff, Member of the Council of the Empire and Aid de Camp General of the Emperor of Russia, and Baron de Brunow, his Envoy Extraordinary and Minister Plenipotentiary to the Germanic Confederation.

FOR SARDINIA.

The Chevalier Massimo d'Azeglio, Senator of the kingdom of Sardinia.

FOR TURKEY.

Aali Pasha, Grand Vizier of his Majesty the Sultan, and Mehemed Djemil Bey, his Ambassador at Paris.

A goodly show assuredly. Buol Schauenstein is one of the greatest statesmen, and the representative of one of the oldest families of Austria. Lord Clarendon inherits the title of a dynasty of British statesmen. Russia will be represented by two of the most distinguished of her nobility and the strongest of her public men. Even Sardinia has found in Massimo d'Azeglio a representative whose fame will enhance the ancient lustre of his country. As for France, she has the Baron de Bourqueney to represent her old nobility, and the son of the old Napoleon, well tutored by his cousin to personify the present genius of the empire. The conferences will be a season of unmingled gaieties and unprecedented splendors. Rumors of gay balls and reunions, of splendid shows, and costly entertainments, have already reached this side of the water. Each of the Plenipotentiaries will doubtless do his best to outshine the others, the Parisians will put them all on their mettle and try them by the severe standard of Parisian taste; altogether the month will be a season such as Paris has not seen since those old days of the absolute monarchy long ago when the great monarch received his guests with a magnificence which poets pronounced super Oriental. If any one doubts that, under circumstances like these, and emotions such as imperial fetes, Parisian balls and the rest will inspire the Plenipotentiaries will hasten to make peace, his opinions of human nature would be worth studying.—*N. Y. Herald.*

Dead Oak Clubs.—Those stately Live Oaks, Nos 1, [illegible], 17 and 4, which so suddenly grew up from little acorns into tall concerns that needed a column in the daily papers to detail their weekly growth, have been terribly blasted by the shock that came over the wire from Philadelphia.

Last night was the appointed night for the stated meeting of the late Live Oak Club No 6 but our reporter found their room at Florence's dark and untenanted. The bust was not there—the Club was a burst. To his anxious inquiries for the members, he only got the answer, "Geo Law is dead." He called round to Mr Barker's residence but the policeman before the door assured him that Mr Barker was out of spirits, so he didn't go in. He called at Horatio N. Wild's establishment, and learned that the like-to-have-been Senator and Ex Councilman had issued a novel mourning candy barber's pole, whereof the ribbon that erst was red is now black as ink. With fragrant sticks of this dolorous looking confect, the subscribers to *Young Sam* solaced themselves all day, and it is hoped that the enterprising artist will yet make money out of his friend Law's Dis Order. So mote it be.—*N. Y. Times.*

Received by La Crosse & Mil. R. R.—2005 bus wheat, 120 do barley, 28 do grass seed, 168 bbls flour, 76 hides, 270 lbs sundries.

By Mil & Horicon R. R.—1659 bus wheat, 102 bbls flour, 120 bus barley, 200 hides.

No returns for Mississippi or Watertown Roads.

Receipts of produce have been quite light during the past week and most of the wheat coming in goes immediately into store. The market was languid and transactions small till Saturday, when some demand sprung up to fill contracts, and as high as $1 20 was paid for good club. Other grains are as noted. Business of all kinds has been quiet during the week. Money is not plenty and the Banks will only take first class paper. The Winter left us according to the Almanac on Saturday but still abides with us in fact. Tho' severely cold it has been a very fine season for lumbering, and generally healthy.

We note the leading features of the market below:

Flour—Our millers have mostly shut down, or are only grinding to fill contracts. Superfine Flour may be quoted at $6 25@7,00 and Family and Extra at $7,75@8,50.

Wheat—Light receipts and market dull, with occasional [illegible] buying in quarters, or to fill contracts. Choice commands $1,15@1 20 and prime shipping winter which is very scarce would bring $1 50@1 [illegible].

Barley—continues in fair request and with limited supply sells at [illegible]@[illegible], according to quality. Choice lots occasionally going higher.

Oats—are in good demand for home consumption and retailing at 3[illegible]@40 cts. Very few come in though there must be a good supply in farmers' hands.

Corn—is steady, demand mostly to go north at 4[illegible]@[illegible] cent.

Rye—very little coming in; price nominal at $1,00@1 05.

Potatoes—good sound ones bring 75c@$1 00 and are scarce.

Pork—Receipts light and only in retail demand at $5 50@[illegible] 75 for light to heavy.

Eggs—are rather more plenty and can be had now at 12@14 cents.

Butter—is as scarce as ever and a prime article for the table is snapped up at 25@28 cents.

Provisions—Beef on foot commands $3 50@4 00 and for very choice $4 50 has been paid. No change in Mess Pork or Beef, and market quiet.

Hay—Marsh Hay has sold during the week at $11@12 and Timothy at $[illegible]@1[illegible].

Wood—As the winter passes away the price of wood falls off a little. Maple dry sells at $3 75@4,00.

Weather—The weather which was mild and Spring like in the early part of the week grew wintry again toward the close with more snow.

[By Telegraph.]

New York Money Market.

New York, March 3.

Stocks firm but quiet. Money continues very plenty and freely offered at 5@6 per cent on call; 7@8 for short first class paper. Sterling exchange dull at 109¼. M S [illegible]; M S & N I 9[illegible]; C & R I R R 95½; I C bonds 87[illegible]; Ca G[illegible] 119[illegible]; N Y C R R 9[illegible]; Erie R R 59½; Hudson 34½.

Chicago Market.

Saturday Evening Feb 29 1856.

The Eastern news has no visible effect on produce prices and quotations remain as formerly. There are buyers in the market at $1 00 per bu for spring Wheat.

Flour—City Mills extra at retail $9 00; superfine $8 50. Country brands of best quality range from $6 00@7 50 at wholesale.

Wheat—Spring to store and mill $1 00; red winter $1 20@1 25; white $1 35@1 45.

Corn—35@40c per 60 lbs.

Oats—[illegible]0c to livery stables, [illegible] to store.

Barley—Ranges from $1 [illegible]@1 30.

Dressed Hogs—$4 50@5 25 for light and heavy.

Mess Pork—Held at $14@14 50 per bbl.—*Tribune.*

JOHN JAY CHASE,

Located at Prairie du Chien, Wis.,

THE WESTERN TERMINUS OF MIL & MISS R R

THE SUBSCRIBER has for sale a large amount of Town Lots, Blocks and other Lands some of which are well situated for business, and others for residences, which he is offering for sale at reasonable prices.

A complete abstract of Title has been made by the subscriber to all the lands situated in Prairie du Chien, and he is now prepared to furnish to residents or non residents abstracts of title to such lands as they may designate on short notice, and upon reasonable terms.

Persons wishing to invest in Real Estate in a healthy and growing town, cannot do better than to settle at this place, as the point Prairie du Chien is beautifully situated on the eastern bank of the Mississippi River, and is the western terminus of the Milwaukee and Mississippi Rail Road, which road will be completed in the fall of 1856. Its advantages as a great commercial point, must, in a short time make it one of the most important towns on the Upper Mississippi. The subscriber offers his services to those wishing to purchase property here, for the payment of Taxes, and to attend to all business connected with the purchase and sale of Real Estate.

Letter from Hon. John Minor Botts, of Virginia.

Richmond, July 9th, 1855

Messrs. Wm S, Beers & Co,

Gentlemen:—Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of CARTER'S SPANISH MIXTURE, for that almost incurable disease, Scrofula.

Without being disposed, or deeming it necessary, to go into the particulars of the case, I can say that the astonishing results that have been produced by that medicine on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted, and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful malady.

I do not mean to say that it is adapted to all constitutions, or that it will afford the same relief in all cases, for of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it in any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or control.

Respectfully yours,
jan23 JNO M. BOTTS.

☞ For the benefit of the invalid portion of the community, we extract the following from the Almanac of Dr C M Jackson, proprietor of *Hoofland's German Bitters* hoping it may induce a trial of them.

Sheffield, Ill, March 19, 1855

J C NILES says

"I expect to sell great quantities of your bitters this year. Many of my customers speak very highly of its good qualities, having proved itself most an *excellent Fever and Ague preventative, a great purifier of the blood,* and the very best thing on record to aid digestion and create a good natural appetite. In short, I am sure it is one of the very best medicines known for family use, being safe and pleasant for any one to take."

C L D CROCKWELL says

Anamosa, Iowa, May 1, 1854.—"The Bitters give unbounded satisfaction to all that have used them, and I do and can always recommend them to all that are afflicted. They have cured many cases of Dyspepsia, some of them where hundreds of dollars have been spent for remedies which afforded no relief, and were considered incurable until they used the Bitters." DAILY SENTINEL.

Milwaukee, Tuesday Morning, March 4, 1856.

CITY MATTERS.

Circuit Court, March 3.

JUDGE HUBBELL, PRESIDING.

The case of the State vs. John B. Spencer and Sybil Spencer for keeping a house of ill-fame came on, and the following jury empannelled:

G. Lasher,
Jacob Bungers,
John Boyd,
Anthony Fuchs,
Josiah Knowlton,
Francis Wright,
Stephen Hoff,
Joseph Williams,
John A. Borger,
James Martin,
Henry Sarges,
Patrick Kelly.

The forenoon was occupied entirely with the evidence of the prosecution.

District Attorney for State, J. L. Doran for defendant.

The trial occupied the entire day. The evidence was clear as to the offence charged in the indictment, keeping a house for the purposes of "prostitution and lewdness." A lengthy speech, occupying an hour was made by the defendants counsel, who was followed by the District Attorney in a brief, pointed and convincing argument of eighteen minutes duration. The Judge's charge was brief, fair and clear. The jury were absent from their seats eleven minutes—returning a verdict finding both defendants guilty as charged in the indictment. The verdict was received by the public with satisfaction and by the defendants with a laugh. The trial of John B. Spencer for the murder of John Ringer, on the 24th of December [illegible] the same house, will come on Wednesday morning.

Police Court, March 3.

Charles Gibney, drunk and disorderly and fighting, fined $10,00 and costs, John Egan, drunk and disorderly, fined $5,00, David Chambers drunk, fined $1,00; Patrick Meloy disorderly, fined $1,00 Timothy Donahue, disorderly, fined $5,00, Henry West, drunk and disorderly, fined $2,00.

Assault upon a Wife.—A man named Charles Bede, was convicted of an assault and battery upon his wife pounding her with a broom handle, a dispute occurred between them, the husband's flogging his boy—the woman interfered to prevent him, when he struck her with the broomstick, bruising her arm and body. The Court sentenced him to thirty days imprisonment in the County Jail.

A man named A. Weil was charged with an assault and battery upon Bernhard Cohen; the case was continued to March 7th for trial.

Dramatic Reading.—The Dramatic reading of "Uncle Tom's Cabin" last night at Young's Hall was but thinly attended. At the hour announced for the commencement of the reading, a pelting snow storm was raging. Mrs. Webb is a beautiful reader, and the tones and manners of the actors in the drama were ably rendered by her. She leaves for Madison this morning, where she will read her play to we hope a larger audience than greeted her here. From Madison she goes to Janesville, and thence back to Milwaukee, when she will repeat the reading of this unsurpassed work. Of the next reading, due notice will be given.

Opera To-Night.—Our Musical Society produce to night, for the first time, Flotow's Opera of "Stradella," with new dresses and scenery, a Masquerade and a Ballet. The leading parts are well cast, and a well drilled Orchestra and effective Choruses will lend their important aid to the success of the entertainment. Books containing the words of the Opera in English, can be obtained at Niedecken's—price 10 cents. We assume, of course, that Young's Hall will be crowded and we know that all who attend will be delighted with the Opera.

Fire.—About midnight, Sunday, a fire broke out in a frame tenement on Detroit street, between Vanburen and Lake, in the Third Ward. The flames spread rapidly and soon communicated to three small wooden buildings adjacent, two of which were destroyed and the third much damaged by fire and water. The buildings were all owned by Michael Dwyer, who resided in the one where the fire broke out. The others were tenanted by several Irish families. Most of the furniture, bedding, &c., except Dwyer's was saved. Besides his buildings and furniture, Mr. Dwyer lost $375 in money, which was in a box in the house, but the fire spread so fast that he barely had time to get out his wife and children. The total loss was about $2,000—no insurance.

Charged with Embezzlement.—A man named W. F. Ward was arrested by Charles E Smith, a detective of Chicago, and taken to Stoughton, Dane Co., yesterday afternoon, on a charge of embezzling $125 from H W. Waters & Co., on the 27th of December last. The arrest was made upon a requisition upon the Governor of Pennsylvania from the acting Governor of this State. The officer proceeded to Albion, Erie Co., Pa., and found Ward had left for Coldwater, Michigan, where he was arrested. It is thought by some that the case is more of a misunderstanding than a crime.

No. Four's New Bell.—The new Bell for Engine Company No. Four, from the manufactory of Jonas & Hitchcock, Troy, N. Y., was hung last week. It has a very fine tone, and at the fire Sunday night, was heard a great distance. The weight of the bell is 764 lbs. The Company was greatly pleased with it, and feel much indebted to the Chief Engineer and City Comptroller, for the aid they rendered in getting the new Bell for No. 4

Handsome Present.—Last evening the members of Neptune Engine Co. No. 2 presented their worthy Foreman, D. Shultz, with an elegant Silver Pitcher, worth $50. After the presentation, they escorted their Foreman home, with a band of music. Mr. Shultz had fairly earned this handsome and substantial compliment from the members of No. 2, by his long, faithful and efficient services, both as Fireman and Foreman.

Fireman's Tournament.—Several of the Fire Companies of the City with their apparatus, met on the ice just below Spring Street Bridge yesterday, and had a friendly trial of skill. The weather was very fine, and the show attracted a crowd of spectators. All of the Engines threw streams far higher than the tallest buildings lining the banks of our river.

City Marshal.—Frank Davlin is a candidate for the office of City Marshal, at the ensuing Charter Election, as may be seen from his card. We think all who know Frank, will agree with us in the opinion that he would make an honest and efficient officer. May we get no worse!

The Weather—Winter Again.—Yesterday morning broke clear and cold; the mercury at sunrise being only 8 or 10 degrees above zero. Towards noon, it moderated rapidly, and the warm, bright sunshine felt quite springlike. In the afternoon the sky became overcast and at night-fall, a furious snow-storm had set in.

Off for Waupun.—The Sheriff starts for Waupun to-day with 13 prisoners, 11 males and 2 females, convicted and sentenced during the present term of our Circuit Court.

Glass Ware at Auction.—Rooney sells at auction, this morning at 10 o'clock, a large quantity of Glass Ware, to pay charges. See his advertisement.

DIED.

In this city, on Sunday evening, March 2d, WILLIAM BROWN, late of Albany, N. Y., aged 49 years 8 months.

Mr. Brown was an old and respected resident of Milwaukee, and prominently connected at different times with several of our leading mercantile and commission Houses. He enjoyed a high character for business integrity, and possessed the esteem of all who knew him. After several weeks of great suffering he fell a victim to an insidious disease, which did not reveal its presence till medical skill was of no avail. An attached wife and many sincere friends mourn his departure.

Piles.—Persons afflicted with this disease are referred to the advertisement of Dr. Dupries in another column of our paper. The remedy offered to the public by Dr. D. is strongly recommended by those who have tested its virtues. The principal depot is at 76 Nassau street, New York, where orders should be addressed.

SANDS & CUMMINGS'

NEW & IMPROVED PATENT BRICK MACHINE
FOR TEMPERING THE CLAY, MOULDING AND PRESSING
Six Bricks in five Seconds
Completed at a Single Operation,
BY STEAM, HORSE, OR WATER POWER.

IN presenting this wonderful machine to the public, the patentees and proprietors wish to make no vain boast of its abilities, or assert in its behalf a single word which cannot be substantially and satisfactorily maintained, and they appeal to the practical brick makers of our country with confidence, when they add, that such a machine is in positive and absolute demand. The business of brick-making is now engrossing great attention, and the rapid growth of our land seems to show that our present facilities will hardly meet a fraction of the demand for the useful articles which it is proposed to furnish by this new means of manufacture. In New England and the Great West, the supply has not been adequate these last ten years and the consequence has been the prices of bricks have been exorbitant, and that most especially during the very last year it has been almost an extortion.

Sands & Cummings' Brick Machine is built mostly of iron is about four feet square, and five feet high in the rear.—When it is worked by horse-power, with four or five hands employed, (no more being required,) it turns out from fourteen to eighteen thousand bricks per day of ten hours. It is successfully operated by any ordinary laborers, who, by it, become fully competent to the most intelligent and experienced brick-makers.

CERTIFICATES.

Washington, December, 27, 1853.

Dear Sir:—I have examined with much care and interest your Brick Moulder and Temperer, on Capitol Hill, in this city, and cheerfully bear testimony to its excellence. I consider its simplicity of construction, its rapidity of execution, and its durability, to be apparent to every observer, and I can say that the experience of twenty-five years in the manufacture of bricks, has given me good opportunities of judging closely in this matter. I think your machine is unrivalled as a Brick Machine in the United States. Respectfully, yours, S. HAYDEN
Practical Brick-Maker, at Palmyra, N. Y.
H. SANDS, Esq.

Washington Aqueduct Office,
Washington, Nov. 23.

Sir:—I was present, yesterday, at an exhibition of Sands & Cummings' Brick Machine. It appeared to me to be conveniently arranged, to be simple in its construction, not likely to get out of order, and it did its work quietly and effectually. I think it a very good machine.
M. C. MEIGS, Captain of Engineers,
In charge of Washington Aqueduct and Extension of U. States Capitol.
H. SANDS, Esq.

Washington, November 29, 1853.

Sir:—I this day had the pleasure of witnessing the operation of Messrs. Sands & Cummings machine for making brick, and must say that it performed much better than I expected. I can, therefore, recomend it to the public as a valuable labor-saving machine, as it tempers the clay and moulds the brick at the same time.
WM. P. ELLIOTT, Architect and Engineer.
To, H. Sands, Esq.

Washington, November 23, 1853.

I have witnessed the operation of Messrs. Sands & Cummings' Patent Brick Machine, and consider it unequalled in simplicity, and in the perfection of its results, by any machine of any class that has come under my observation.
CHAS. EVERETT, late of the Patent Office.

Washington, D. C., November 26, 1853.

It is with much pleasure that I am prepared to say, that having witnessed the operation of making brick, by a new patented machine, by Sands & Cummings, it by far exceeds my expectations. It is very simple in its construction, and sure in its operation. From my experience as a practical machinist and model maker, (having constructed several models for that purpose,) I believe it to be far superior to anything I have ever seen. It can be worked with certainty and great facility, by the most ordinary laborer, while it tempers the clay and moulds the brick at the same time. I would especially recommend it to all persons engaged in the brick business.
J. B. WOODRUFF.

Georgetown, D. C., November 25, 1853.

Having witnessed the exhibition of Sands & Cummings' Brick Machine, on Capitol Hill, last week, I hereby certify that its work was very satisfactory and simple, thereby allowing it to be used by hands totally unaccustomed to it. I was much pleased with the machine in every respect.
ROBERT P. DODGE.

Washington, D. C., November 23, 1853.

H. Sands, Esq:—*Dear Sir.*—I have this day witnessed the operation of Sands & Cummings' Patent Brick Moulding Machine, and am fully satisfied that it is not equalled by any machine for speed, or in the correctness of its work; and can therefore cheerfully and confidently recommend it to any person wishing to purchase a perfect machine. Yours respectfully,
JOHN BREES,
Practical Brick-maker, Wyoming, Syracuse Co., Pa.

Washington, March 21, 1853.

Gentlemen:—I take pleasure in recommending to the public your Brick Machine. Having seen one in operation in Memphis, Tenn., I immediately purchased the right to use one in Phillips County, Arkansas, believing that better brick could be made by them than by the old process, and, at the same time saving the labor of at least one-half of the number of hands required in the ordinary way of brick-making. Respectfully,
H L. BISCOE.
Messrs. Sands & Cummings.

[Mr B. first experimented with a dry clay brick machine, at a cost of several thousand dollars, which he set aside, and adopted in place thereof one of Sands & Cummings'.]

Washington, March 31, 1853.

To the Managers of the Metropolitan Mechanics' Institute:

Gentlemen:—I am under the impression that the Committee on Class No. 6, in which the machine deposited by Sands & Cummings—a Brick-making machine was embraced—recommended it as being the best machine offered, and therefore entitled to the highest award. As one of that Committee, I am of the opinion that it is the best machine now in use in this country for making bricks of *tempered* clay. I have seen the machine in use, of full size, and the *quantity* and quality or the bricks it produces are better than any others that have come to my knowledge. I am engaged in the brick business, and have searched much in all our principal cities for the most approved machines, and must say, that this machine is the very best I have seen or heard of; I, therefore, recommend the machine as worthy of the highest award that you can give to any machine at the Exhibition.
SAMUEL BYINGTON.

Troy, New York, September 15, 1853.

This certifies that I have been in the brick business, extensively, for seventeen years, and am employing twenty-two hands, and have this day witnessed the operation, in my yard, of Messrs. Sands & Cummings' Patent Machine. The Machine tempers the mud and makes brick at the same time. It is simple in it construction and not liable to get out of order, and can be worked with common borers, and makes good bricks, and is capable of modeling from 14,000 to 18,000 per day. I am well satisfied with the working of the machine. I have worked different kinds and take great pleasure in saying that this is the best I have ever seen, and in recommending the same to the public as being worthy their attention.
JOHN ARCHIBALD.

Cambridge, August 27, 1853.

This is to certify, that I have been engaged in making bricks about twenty years, and have seen and used different kinds of improved brick machines, and am now using them. I have this day witnessed the operation of Sands and Cummings' Patent Brick Machine, at Edmund Hayes' brick-yard, in Cambridge, Mass., and, in my opinion, it is most simple in its construction and, at the same time possesses every requisite for durability; to the extent, that common laboring men can easily do all the work with the machine that is required of practical brick-makers. The machine tempers the clay by horse power, and, at the same time is capable of moulding 14,000 to 18,000 good bricks per day; and that it is best machine now in operation, and I take much pleasure in recommending it to all interested. GEO. W. WYATT.

Cambridge, August 27, 1853.

This is to certify that I have been in the brick business for thirteen years, and have seen the operation of Messrs. Sands & Cummings' Patent Brick Machine, in Mr. Edmund Hayes' yard, and, in my opinion, it is the best in use, and that it will make from 14,000 to 18,000 of good bricks per day, with horse power.
S. M. COFRAN, Putnam street.

Boston, March 22, 1853.

H Sands—Dear Sir:—This is to certify, that the Mechanics Brick Manufacturing Company have had in use in their yards during the past season some of your Patent Brick Machines, and the undersigned regard them the best machines for manufacturing brick that they have any knowledge of.
JOHN WILLIAMS, Pres't M. B. M. Co.

Terms, &c.

Machines will be furnished complete, (excepting only the sweep beam, which would of course be hardly worth the transportation,) with four setts of iron-bound moulds, for $300; and in ordering machines, parties should invariably send the dimensions of the bricks required to be made. *This should not be neglected.*

In sales of State, County or other rights, machines are sold at cost.

☞ The inventors have been asked often as to the size of yard, and position of kilns, and being anxious to impart every information to be derived from their practical knowledge, they respectfully submit the following:

For the most successful operation of one machine, the yard should be one hundred feet wide, and ninety feet in length, adding from eighty to a hundred feet in width for every additional machine, but never increasing the length of yard. The kiln grounds should extend from the head of the yard, so that the bricks being hacked, can be conveyed to the kiln sheds on a parallel line with the yard.

Bricks should be set into the kiln as soon as dried, and made by this machine they dry much sooner than in the usual mode of manufacture.

WISCONSIN LEGISLATURE.

Madison, March 3, 1856.

Assembly.—House met at 3 P. M.

Mr. Stark in the chair.

A great number of merely Local bills were introduced of no importance.

Mr. Hull introduced a bill in relation to the Fox River Improvement Land grant certificates.

The resolution directing the Committee to report back the Kansas resolutions; was carried.

Five hundred copies were ordered printed of the Report of the minority of the Committee on Capital Punishment.

A message from the Governor concerning the Swamp Lands was read and with it a letter from Col. Hurlbut, the U. S. Agent, treating of the depredations upon them, also a message transmitting a detailed account of the expenditures of the Contingent Fund; 200 copies ordered printed.

A large number of bills were then passed, *en masse*.

A bill concerning the militia called forth a long debate.

The House then went into committee of the whole and this same bill was read and debated, and after some time reported back to the House and referred to a select committee of Messrs. Stark, Farr and Chapin, and the House adjourned.

In the Supreme Court to day Mr. Howe closed for Mr. Bashford, and the case is now submitted to the Court.

SIX O'CLOCK REPORT.

Congressional.

Washington, March 3.

Senate.—Mr. Seward referred to several periods of our history from the affair of the Carolina, to the late dispute in regard to the fisheries, to show that the appearance of a single British vessel has frightened the country into a fear of impending war. He said he was tired of these things and wished the people, especially the Merchants of Commercial cities, to discuss questions of National interest without being alarmed thereat—fear of the inability of our Government to maintain them in their proper rights and interests.

He would vote for this increase of the Navy irrespective of any question in regard to our foreign relations, simply because he thought it wrong to leave the seaboard exposed, because there never had been a time so propitious as the present, without any alteration in our revenue system we are receiving an immense surplus revenue could do so.

Mr. Hale thought it absurd to undertake to put our navy on a footing to compete with those of other countries. It reminded him of a legacy of 10 pounds bequeathed by an Englishman to pay the National debt. If there was any apprehensions of war it originated in Congressional Speeches. It is time to economise expenditures.

Mr Bell, of Tenn, said the bill was unanimously recommended by the naval committee and not founded on an existing alarm on the subject of war, for the object was to supply a class of vessels really necessary for the protection of commerce.

Mr. Hunter believed that the matters of difference between Great Britain and the United States were such as ought to be settled if commercial discretion is exercised. The passage of the bill should not create mere alarm to increase the chance of peace by preparation for war, thus diminishing the opportunity for foreign powers to speculate on our weakness, real or supposed.—The bill was passed. The estimated cost of each vessel is 500,000 dollars including equipment and steam machinery. 2,000,000 are now appropriated.

Senate after discussing the bill authorizing the construction of 10 sloops of war, was passed, and the Trumbull election case discussed.

The Trumbull election case was considered.—Mr. Crittendon favored Mr. Trumbull's right to the seat, stating that the Constitution of the U. S. defines the qualification of Senators, and no State has authority to require any other. Mr. Hugh contended that the plain and obvious meaning of the State Constitution should govern the question—the State had a right to require any qualification it pleased, so long as there was no conflict with the Constitution of the United States. Adjourned.

House.—The deficiency appropriation bill was considered. The discussion of it had not concluded when House adjourned.

Washington Items—General Cass Explaining.

Washington, March 3.

The right of Mr. Trumbull, of Illinois, to his seat in the Senate, will be debated to-day,

The committee on elections will report on Reeder's case to-morrow, setting forth important facts which they expect to prove, and renewing the application for authority to send for persons and papers to Kansas.

Mr. Stephens of Georgia, will make a minority report.

Senate—Mr. Cass made a personal explanation in relation to an article in to-day's Intelligencer, signed "J. W. W." which he attributed to James Watson Webb.

It relates to a conversation between Mr. Webb and Lord Clarendon, in which the latter stated that he had no unfriendly feelings towards the United States. The statement was explanatory of a remark made by Lord Clarendon in the House of Lords that the understanding between the English and French governments was perfect in relation to all parts of the world which was misunderstood. Why did he not explain it in his place, in the House of Lords, instead of leaving it to be explained in a private letter which few persons would see or hear of.

The bill authorizing the construction of ten sloops of war, was taken up.

Arrest for Forgeries in Boston.

Boston, Feb, 27,

Daniel C. Emery was arrested last night, charged with committing forgeries in Philadelphia, as follows:—A check on the Bank of Pennsylvania for $427; do. Southwark Bank, $692; do. Girard Bank, $1,582,41; do. Farmers' and Mechanic's Bank, $1,000. About ten years since Emery was convicted and sentenced to ten years imprisonment in the State Prison for forgeries on several Boston firms, but was pardoned after serving two years of the term. He was arrested last night at the Winthrop House, where he has been boarding, with his wife and two children. He is about 32 years old.

St. Johns, N. B., March 3.

The report circulated in New York, respecting a steamer alleged to have been seen on the banks of New Foundland by a person who represented himself as the mate of the Brig Bogert, which arrived at this port on Wednesday last, must be entirely without foundation, as no such vessel has been heard of at this port.

GREAT FIRE!

Toledo, Ohio, February 12th, 1856.

The Durfee & Forsyth Manufacturing Company:

Gentlemen:—On the morning of the 20th ult., a fire broke out in our block, composed of nine buildings, of which ours is the centre. Our Safe was one of Durfee & Forsyth's manufacture, Rochester, N. Y., stood about the middle of our store, and was exposed to the most severe fire we have ever witnessed; from 4 until 9½ o'clock in the morning. So intense was the heat that our stove, which was a large and heavy one, and which stood within about four feet of the Safe, was almost entirely melted down. When we had seen that, we came to the conclusion that the contents of the Safe were not preserved, but on opening it we were very agreeably surprised to find them all in a perfect state of preservation.

Respectfully yours,
N. W. EDDY & CO.,

CARTER'S SPANISH MIXTURE

THE GREAT PURIFIER OF THE BLOOD!

THE BEST ALTERATIVE KNOWN!

NOT A PARTICLE OF MERCURY IN IT!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes. Ringworm or Tetter, Scald Head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood.

This great alterative Medicine and Purifier of the Blood is now used by thousands of grateful patients from all parts of the United States, who testify daily to the remarkable cures performed by the greatest of all medicines, "CARTER'S SPANISH MIXTURE." Neuralgia, Rheumatism, Scrofula, Eruptions on the Skin, Liver Disease, Fevers, Ulcers, Old Sores, Affection of the Kidneys, Diseases of the Throat, Female Complaints, Pains and Aching of the Bones and joints, are speedily put to flight by using this inestimable remedy.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system of all impurities, acts gently and efficiently on the Liver and Kidneys, strengthens the Digestion, gives tone to the stomach, makes the Skin clear and healthy, and restores the Constitution, enfeebled by disease or broken down by the excesses of youth, to its pristine vigor and strength.

For the diseases of females it is peculiarly applicable, and wherever it has become known is regularly prescribed with the happiest effects. It invigorates the weak and debilitated, and imparts elasticity to the worn-out frame, clears the skin, and leaves the patient fresh and healthy; a single bottle of this inestimable remedy is worth all the so-called Sarsaparillas in existence.

The large number of certificates which we have received from persons from all parts of the United States, is the best evidence that there is no humbug about it. The Press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this GREAT BLOOD PURIFIER.

Call on the Agent and get an Almanac, and read the details of astonishing cures performed by CARTER'S SPANISH MIXTURE, (in most cases where every thing else had signally failed.) The limits of an advertisement will not admit their full insertion.

STEAM FOUNDRY!
—OF—
TURTON & SERCOMB,
296, 298, 300, 302 and 304 West Water St,

IS STILL IN FULL BLAST WORKING DAY AND night to supply the daily increasing wants of the Badger and other States
In order the better to do this the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes and a Machine for making bolts, and are now putting in a steam Engine of [illegible] horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine Engine and Blacksmithing business. They never were in a better position for doing business, and

In regard to the character of the work got up by this
The Oldest Establishment in the State,
the Proprietors refer to their successful operation through the country as their best recommendation as it can speak for itself. All they can say is that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man
They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle,
They have always on hand a large stock of BRASS WORKS such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S [illegible], which they will sell at the lowest cash price
They are also Agents for EASTMAN'S PATENT STEAM GUAGES which are well worth the attention of all those who use Steam Engines
In conclusion they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained

EVARTS'
PATENT SHINGLE MILL

EVARTS & BUTLER,
PROPRIETORS & MANUFACTURERS,
CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood
The ease with which wood is worked in that direction gives the speed of execution, and the flexibility of the shingle renders it wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood
The shingles now made with this mill sell in this market seventy five cents per thousand higher than any other sawed shingles.—
The mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order

GREAT BARGAIN!

THERE has not been such a bargain offered in the city as the 140 acre farm, 2 miles from town, with 30 acres excellent timber, and the balance in crops, that we have on our books for sale
$100 per acre is cheap for it but we can do a little better if a customer turns up within a week
